

**INVEST IN EDUCATION!**

{{ contact.FIRSTNAME | default : "Dear friend," }},

At Freedom in Education we are committed to bringing you the truth. What is true is not always easy to receive at times. The State of Education in America is quite frankly shocking. Buckle up!

**F**

- Two-thirds of America's 4th and 8th graders are **not proficient** in reading according to the [Nation's Reportcard](#). Literacy is at the very foundation of education. If students cannot read they are unable to learn in other subjects. Did you know that [9 out of 10 high school dropouts](#) were struggling readers in 3rd grade?
- 81% of teachers report that they are spending more time on [social-emotional learning](#) with their students than ever before. Our schools are on a path to turn into mental health facilities! How have we allowed this to take over the school day, originally intended for academic core subjects?
- The rate of [chronic absenteeism](#) has doubled from 10% to 20% in recent years.

- [Student discipline](#) issues have risen since school closures with the pandemic and administration falling for the social justice reform framework putting schools on a path to failure.
- The hardest truth to swallow may just be the [fact](#) that the United States spends more money than any other country on education!

## **WHAT IS THE SOLUTION TO IMPROVE EDUCATION FOR ALL?**

For too long we have allowed those in positions of power and prestige to make decisions on behalf of our children's education, all too often trusting the "experts". Education is FAILING our children. The State of Education in America is at a critical juncture. We can either sit idly by and let governments across the nation continue to "fix" *their* priorities in education with *our* tax dollars growing public-private partnerships and bureaucracy, *or* we as parents & community members can contribute to pioneering solutions that get to the root of these problems in public education. LOCAL ACTION will have a NATIONAL IMPACT but we need every parent involved in their own community. At Freedom in Education we firmly believe that every student deserves the opportunity to access a quality education that aligns with their individual strengths, passions, and learning styles. The FREEDOM to CHOOSE is important to most all parents and the freedom to choose the school best fit for your child is part of the solution to this crisis. Parents know their child best. Join us in advocating for universal school choice. These children are the future of our country and they deserve better!

## Teacher Freedom Summit is coming back to Denver July 8-10!

This year, the conference is totally free of cost for all attending teachers – the generous supporters of the [Freedom Foundation](#) are sponsoring for your hotel accommodations, food & beverage, and conference materials. *You just have to get to Denver.*

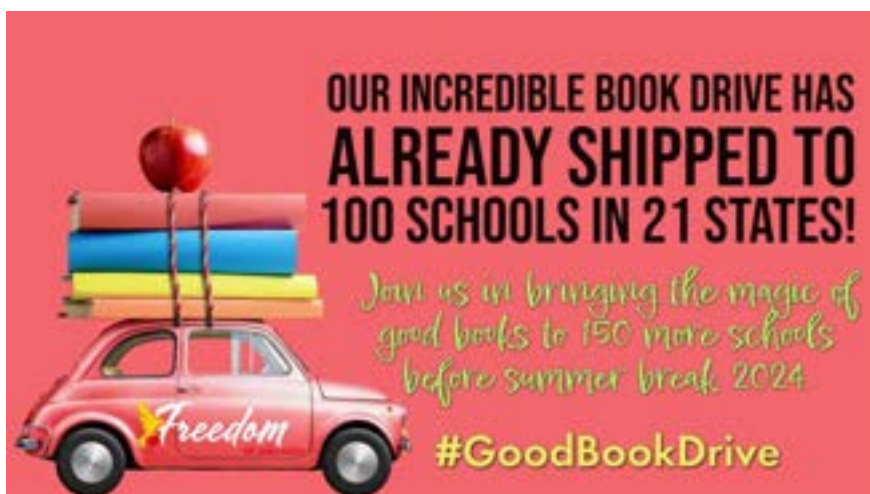

We are offering some travel scholarship money. Additionally, for returning teachers, any new teacher that applies and attends the conference using the returning teacher's name as a referral code (on the application), we will give \$100 towards the returning teacher's airfare.

For all returning teachers, we are doing a separate intensive leadership training you won't want to miss!

Our coalition of passionate educators is committed to instilling traditional values, logical thinking, and a strong sense of responsibility in America's students.

Several of our founders have backgrounds in teaching and understand the challenges and pressures teachers in public school face today. Our goal is to support and encourage all teachers. We understand that it is not always possible for teachers inside the system to speak out publicly. We hope to voice those concerns for them when they feel they must remain silent. We collaborate with teachers on efforts to bring quality curricula into the schools. We are working BEHIND THE SCENES on many exciting projects. You can learn more about our Teacher Coalition [here](#).
